8:30 a.m.- 3:30 p.m.

## Facts you need to know

---

### Program Description

A comprehensive technical, hands-on training program covering all critical aspects of the HVAC/R field. This program offers a combined total of 89 days of classroom/labs and 21 days of field work under the supervision of a qualified technician in a local HVAC/R company. Here is an opportunity to understand refrigeration and cooling systems, electrical circuitry, electric, gas and oil fired heat and heat pumps. Learn to install, maintain, troubleshoot and repair both residential and commercial systems. Students work on fully operational cooling and heating systems in our well equipped HVAC/R lab. Opportunities exist as entry-level service technicians, installation personnel, facilities maintenance technicians, commercial sales and service representatives.

EPA Universal Certification Exam for refrigerant handling is included.

Our students can be found working in/as:

- City Workers
- Testing Laboratories
- Installation of Heating/Air Conditioning
- Plumbing & Heating Companies
- Independent Contractor/Self Employed
- Schools, Hospitals & Government Facilities
