

Icon Declaration Table

The following is a list of item types that are separated within the M3 OPAC by **icon**. Included is the name of the icon, a graphic display of the icon, and the items that are associated with the icon. **Definition** refers to the item that results from the particular template setup that was gathered from the Bibliographic Templates in M3 Cataloging. Five possible MARC fields will designate which icon will appear in the M3 OPAC results, depending on the data inside these fields.

*Denotes data not required in field
