CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2016, more than 300 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Kaitlin Saya from the East Syracuse Minoa Central School District.

OCM BOCES & EAST SYRACUSE MINOA CSD = STUDENT SUCCESS

Kahliem Myricks is an energetic second-grade student from the East Syracuse Minoa Central School District who has become an enthusiastic learner since coming to the OCM BOCES Strides program two months ago. Kahliem's teacher, Rachel Carroll, attributes part of her young student's success to the fact that he loves using his iPad to learn. She mentions two of Kahliem's favorite iPad programs: K-Hoot and Prodigy Math, saying she is proud of the academic gains he has made as a result of this and other available technology.

Ms. Carroll points out that Kahliem's academic success has largely been possible because of the specialized staff support he receives in the STRIDES program. "Kahliem's relationships have greatly improved and he truly enjoys the friendships he has made," she says.

"The more time Kahliem spends in class, the more time he has to devote to learning and focus on his academics," she adds. "We're so proud of Kahliem's success in our classroom. His hard work has truly paid off."

DID YOU KNOW?

During July, teachers spent two days with Lynn Radicello exploring the potential impact that poverty may have on students' academic performance and, more importantly, the ways that educators can incorporate specific instructional moves to support academic gaps. Patrick Shaw continues to provide coaching within the district for implementation and continuous improvement for Project Based Learning.
