## CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2017, nearly 400 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Isabella Calcaginio and Callisto Raymond (pictured on front cover) from the East Syracuse Minoa Central School District.

OCM BOCES purchased the **Forecast5** analytics software for all 23 component districts on a trial basis for the next two years. The program collates demographic and peer data for school districts across New York State and allows districts to access that information for the purpose of developing future-focused strategies to manage their limited resources and achieve improving academic success in today's challenging budget environment.

## OCM BOCES & EAST SYRACUSE MINOA CSD = STUDENT SUCCESS

Elijah Hidgon has flourished in the OCM BOCES SKATE Program at East Syracuse Minoa Elementary School because of its structured, organized environment and focus on a visual model of learning.

Elijah is now in his third year in the SKATE Program. His teacher, Marybeth Crysler, praises the program for increasing her student's academic confidence and skills as well as helping him with social skills.

Elijah's mother, Gwen Hedlund, agrees with his teacher and echoes the praise for his success. She said, "In these last few years in the BOCES program, he has grown so much. He is learning to be more social and he's actually wanting to interact with other children." She went on to talk about his academic success, saying, "His grades have increased by leaps and bounds – he's reading now, and is able to understand what he's reading. This program has been a blessing to our family and my son, and I thank BOCES for helping him become a happy and curious little boy who now wants to interact with the world."

## DID YOU KNOW?

OCM BOCES Educational Programs recently welcomed East Syracuse Minoa to the Home Instruction program. The goal of the program is to provide support to the district's home instruction families to ensure compliance. A NYS Certified School Counselor acts as a liaison between the district and parents. Families contact OCM BOCES directly with questions and submit all documentation directly to OCM BOCES. BOCES works closely with families to make sure they understand the regulations, filing requirements, and assessment requirements to ensure compliance.
