Career & Technical Education

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2018, nearly 300 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Fayetteville-Manlius student Eugene Golovanyuk.

OCM BOCES & Fayetteville-Manlius = Student Success

For sixth-grader Max Ashby, the OCM BOCES SKATE program at Palmer Elementary School in Baldwinsville has helped him thrive. In SKATE, which stands for Scaffolding Kids' Abilities through Education, the optimal school environment includes a small class size, a structured layout, familiar routines, visual supports and plenty of hands-on activities for students on the autism spectrum.

"Max has really grown since joining the SKATE classroom," said his teacher, Corinne Campbell. "He is a great kid, and we love having him in our classroom."

Since he joined the program in January of 2017, Max has grown especially fond of two forms of technology: the iPad and Smartboard.

"Any time technology is incorporated, Max gets so excited, and his participation increases dramatically ... especially with music!" Campbell said. Even on a bad day, she added, "Max will always make you smile."

Another benefit to Max is the TEACCH model, which offers a clearly organized, structured and modified environment with an emphasis on visual supports. The overall result has been a student who works hard, smiles, loves his teachers and enjoys making friends.

"It warms my heart to see Max look at, smile and hug his teachers," said the classroom social worker, Marianne Nastri.

Teaching assistant Madison Mitchell said, "Max is a fun and energetic student who always puts in his best effort."

Did You Know?

The Fayetteville-Manlius Central School District served as a host district (our "East Site") for Regional Summer School. Students from six districts attended this site, where they took initial courses, credit-recovery courses and Regents exams.
