- SLS-Cooperative Collection Development
- SLS-MediaConnect-Media Services

### SLS-Online Resources

- Social Studies Leadership Network
- WCNY Enterprise America

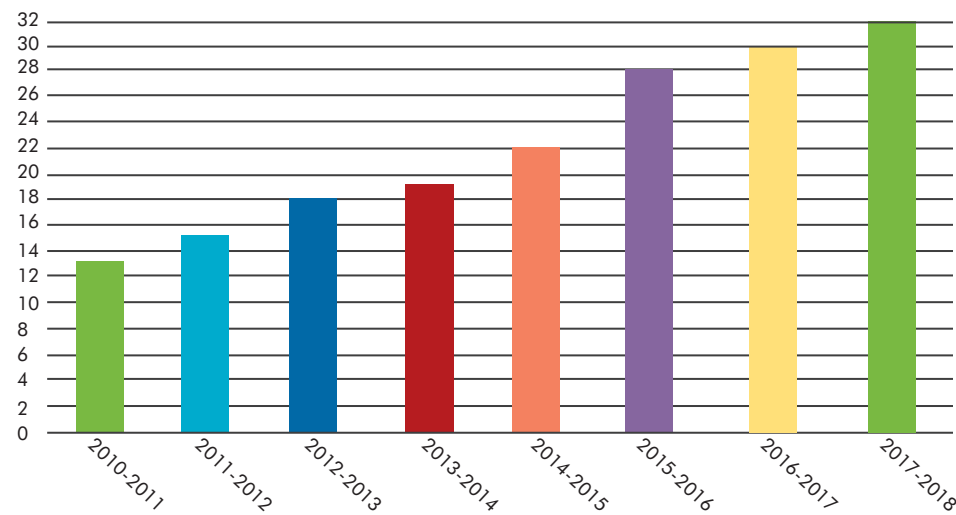

## CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2017, nearly 400 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Deryck Arnold, a Welding Technology student from the Fayetteville-Manlius Central School District.

## SPECIAL EDUCATION

OCM BOCES purchased the **Forecast5** analytics software for all 23 component districts on a trial basis for the next two years. The program collates demographic and peer data for school districts across New York State and allows districts to access that information for the purpose of developing future-focused strategies to manage their limited resources and achieve improving academic success in today's challenging budget environment.

## OCM BOCES & FAYETTEVILLE-MANLIUS CSD = STUDENT SUCCESS

Caleb Starowicz considered the employment climate of two OCM BOCES Career & Technical Education (CTE) offerings as possible options for his future. That's because the Fayetteville-Manlius student has long held a passion for working on cars and computers. After visiting OCM's Thompson Road Campus last year, Caleb decided to enroll in Computer Technology.

Caleb's growing interest in the Computer Science/IT field helped him make that choice because he felt the CTE course would be a great way to experience real-world technology in a Cisco-related lab setting. "I love being able to take computers apart and learn how to rebuild them with more efficiency," the F-M High School junior said. "I have also made some good friends with similar interests from other school districts." Caleb is already thinking about how his education can prepare him for the next step in his future, as he hopes to go to the University of Arizona at Tucson and major in Computer Science, then work for an IT company someplace where it doesn't snow.

## DID YOU KNOW?

OCM BOCES is pleased to be supporting the Fayetteville Manlius CSD School Librarians as they work together to implement innovation, collaboration and critical thinking throughout their curriculum. The School Library System is providing them with several Mobile Maker Labs in the coming months so that the students have a variety of opportunities to explore coding, robotics and engineering practices. The resources and technology that the students will be interacting with includes OSOs, Sphero SPRks, Makey Makeys, MiP Robots, LittleBits, Cubettos, Puzzlets, and Bloxels. The FM School Librarians are doing an incredible job in ensuring that the school libraries are recognized as the "Center of Engagement" for students.
