CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2016, more than 300 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Emily Kaffenberger and Julia Ziajka from the Fayetteville-Manlius Central School District.

OCM BOCES & FAYETTEVILLE-MANLIUS CSD = STUDENT SUCCESS

When Katherine Gilligan is asked to name her favorite subject in school, she enthusiastically replies, "All of them." And Katherine, a Fayetteville-Manlius sophomore with the OCM BOCES STARS program, certainly has grades that reflect her love of learning. Katherine achieved a 91% average for this year's first marking period and recently had averages of 95% or higher for the second marking period.

Katherine came to the STARS program during the 2015-16 school year, when it was still housed in Solvay. She admits feeling very nervous about the program's move to Thompson Road but also relieved when she finally entered the new, spacious facility. She quickly realized it was the same STARS program with the same quality teachers and friends – just with an updated look, nicer furniture and new technology.

Katherine is proud of the excellent grades she has earned and credits STARS for helping her achieve her academic and personal goals. Although she is uncertain about her career, she has launched her college search, has been visiting

colleges and hopes to attend a local school so can stay close to her family, including her twin brothers in fifth grade. Katherine knows that with her help they will do very well – especially, she says, if they go to OCM BOCES.

DID YOU KNOW?

OCM BOCES Project Based Learning Coordinator Joanne Keim is currently providing after-school sessions in the Fayetteville-Manlius Central School District so that teachers can explore the why, what and how of Project Based Learning.
