## CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and post-secondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2017, nearly 400 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Barden Bryce, Rachel Barhite, Alexander Bell, Gavin Beyea, Tristin Brown, Jacob Brown, Fox Burda, Brianna Bushnoe, Keiana Carter-Adkins, Kelly Case, Dylan Casterline, Sarah Creeden, Charles Davies, Wyatt Dexter, Ryan Dwyer, Nicholas Eckhardt, Jordan Fisher, Dawson Funkhouser, Reno Gaffney, Dylan Hatfield, Samantha Juras, Kaylee Mead, Taylor Metzler, Sarah Mundorf, Brittney Nichols Taylor Page, Kristen Rahner, Christopher Rowley, Justin Ryan, Owen Ryan, Connor Schumacher, Delaney Smith, Austin Soule, Daniel Strauf, Xavier Thornton, Isabel Torres, Dillon Towers, Paul Tracy, Marissa Urban and Brooke White from the Homer Central School District.

OCM BOCES purchased the **Forecast5** analytics software for all 23 component districts on a trial basis for the next two years. The program collates demographic and peer data for school districts across New York State and allows districts to access that information for the purpose of developing future-focused strategies to manage their limited resources and achieve improving academic success in today's challenging budget environment.

## OCM BOCES & HOMER CSD = STUDENT SUCCESS

Homer sophomore McKenly Stone has excelled at Seven Valleys New Tech Academy in Cortland since she arrived there 1 1/2 years ago, in its augural year. That progress has become especially apparent to Facilitator Kim Wright, who teaches a class called GlobalLit.

"McKenly has developed a strong work ethic over the last year and a half," Wright said. "She is committed to her education and is very aware of her academic responsibilities. She has shown wonderful collaboration and communication with her peers on class projects."

McKenly agrees. She says her academic work has improved at Seven Valleys because the New Tech high school includes smaller classes, more time to do her work and a culture that promotes independence and interaction with facilitators. Most importantly, she has developed a positive attitude about school, made new friends, and improved her skills in communicating and collaborating with her classmates. One of those classmates, sophomore Marissa Reynolds, said McKenly

not only works effectively in groups, "she keeps others on task with the work they need to do."

In the future, McKenly hopes to study business and eventually become a cosmetologist who owns her own salon.

After a year of growth, that dream is well within her reach.

"McKenly is excited about looking toward her future and planning it," Principal Joanne Keim said.

## DID YOU KNOW?

In its search for a new superintendent, Homer turned to OCM BOCES for help promoting the district as an attractive work location. Laurie Cook, OCM's School Information Officer, spent time in the district learning its culture and interviewing its community in order to construct both a search brochure and a recruitment video. Helping potential candidates learn more about Homer is a key component of ensuring a diverse recruitment pool.
