## CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2017, nearly 400 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Nicholas Mahalick, a Culinary Arts student from the LaFayette Central School District.

OCM BOCES purchased the **Forecast5** analytics software for all 23 component districts on a trial basis for the next two years. The program collates demographic and peer data for school districts across New York State and allows districts to access that information for the purpose of developing future-focused strategies to manage their limited resources and achieve improving academic success in today's challenging budget environment.

## OCM BOCES & LAFAYETTE CSD = STUDENT SUCCESS

Atticus Munnell, a fifth-grader from the LaFayette Central School District, has made tremendous strides both academically and socially as a result of his time at OCM BOCES, according to his family members, teachers and other school staff.

Atticus has been part of the OCM BOCES family for all of his elementary school years. The inquisitive youngster came to BOCES as a preschool student at Park Hill Elementary in East Syracuse and now attends the SKATE Program at Palmer Elementary School in Baldwinsville.

His classroom teacher, Lauren Ciciarelli, is especially impressed with Atticus' progress.

"In three years Atticus' reading level has increased significantly, and he is excelling in math," she said. "He has the opportunity to work side by side with his peers in the 5th grade and has built strong relationships with them and his teachers."

Atticus is also happy with his academic progress and has developed a passion for math and science. He especially likes hands-on activities, including an interactive computer program called "Brain Pop Jr." Atticus says he feels a great sense of pride when he challenges himself and correctly solves a problem.

## DID YOU KNOW?

Educational Programs recently welcomed LaFayette into the Home Instruction program. The goal of the program is to provide support to the district and their home instruction families to ensure compliance. A NYS Certified School Counselor acts as a liaison between the district and parents. Families contact OCM BOCES directly with questions and submit all documentation directly to OCM BOCES. BOCES works closely with families to make sure they understand the regulations, filing requirements, and assessment requirements to ensure compliance.
