## CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2016, more than 300 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas including LaFayette Central School District students: Darren Dodge (pictured on front cover), Kevin Doupe, Benjamin Kramak (pictured on front cover) and Noah Maher.

## OCM BOCES & LAFAYETTE CSD = STUDENT SUCCESS

A typical day for Brendan Vogt, a junior at LaFayette Junior Senior High School is similar to that of his peers. But Brendan considers himself fortunate to be attending his high school as an OCM BOCES student.

Prior to becoming a BOCES student at LaFayette in September of 2015, Brendan's attendance was somewhat inconsistent because he lacked confidence in himself and his abilities. Brendan's teacher, Lauren Hibbard, says that has changed because of BOCES. She said, "Brendan's greatest success is the growth we have seen in his self-confidence. He is proud of the work he does and demonstrates a willingness to continue to work hard on areas he struggles in to continue to improve his academic abilities and understanding."

After high school, Brendan would like to attend a trade program and learn to work on cars. He has gotten a good start toward the future he wants by being part of OCM BOCES. The best part he says, is learning "that I can do more than I think I can do."

### DID YOU KNOW?

Support provided by Curriculum, Instruction, and Assessment has been mapped for the year. During the October superintendent day, Lynn Radicello and AnneMarie Voutsinas provided sessions on Common Summative Assessment and K-8 Math Modules. Upcoming work includes support for teachers implementing the Daily Five to structure literacy instruction, after-school support for math modules and additional sessions for the March superintendent's day.
