## CAREER & TECHNICAL EDUCATION

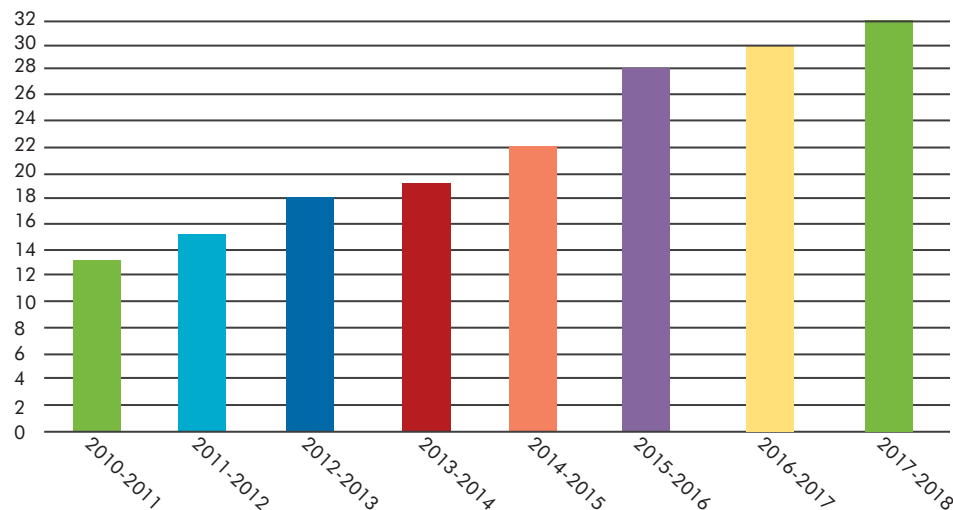

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically

Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2017, nearly 400 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Morgan Bauer, Joshua Cunningham, Ella Epperson, Garrett Kearney and Dylan Law from the Onondaga Central School District.

OCM BOCES purchased the **Forecast5** analytics software for all 23 component districts on a trial basis for the next two years. The program collates demographic and peer data for school districts across New York State and allows districts to access that information for the purpose of developing future-focused strategies to manage their limited resources and achieve improving academic success in today's challenging budget environment.

## OCM BOCES & ONONDAGA CSD = STUDENT SUCCESS

A passion for music from the 50's and 60's has turned into a unique opportunity for Michaela German, a junior from the Onondaga Central School District, who participates in the OCM BOCES Media Marketing Communications Program at WCNY, a public broadcast station in downtown Syracuse.

Through her own initiative, Michaela sought out WCNY's special programs director, Jim Aroune, to create a radio show for WCNY's Oldies Station.

"Michaela is a pioneer in that this will be the first time WCNY has had a host for their Oldies Station," said her OCM BOCES teacher, Kathy Labulis. "She is working on this project after school, on weekends and during class – when time permits – all while keeping up with the Media Marketing Communications coursework and Onondaga Community College coursework. She is a unique student, and I am excited to see where she takes this project."

For each episode, Michaela researches artists, composes scripts and develops a program rundown. Michaela also lends her voice to the program as its host and works to pre-produce the show by recording segments, then applying WCNY's digital editing system to create the program. Michaela hopes to complete the pilot of the program this winter and produce the show through the remainder of her time in the OCM BOCES Career & Technical Education program.

Michaela says her experience at WCNY has been invaluable because it has given her hands-on skills in using the industry-standard Adobe computer programs and, more importantly, has given her real-world experience in a field she has always wanted to pursue as a career. Michaela hopes to someday become an on-air radio or television personality.

"I am so glad I have this opportunity," she said of her time with OCM BOCES. "I hope that what I learn at WCNY will put me one step ahead in college and possibly the workforce."

## DID YOU KNOW?

Onondaga Central School District's director of special education and several special education teachers attended the RSE TASC Transition Bootcamp training in-district. The Transition Bootcamp prepares districts for their upcoming State Performance Plan #13 Self Review for transition that is required every six years by NYSED. Onondaga CSD staff engaged in a review of transition assessment data, learned how transition assessments are used to formulate Present Level statements in IEPs, reviewed the validity of Measurable Post-Secondary Goals and learned how transition activities are designed to meet these goals. Onondaga Central's staff have also engaged in ongoing technical assistance with the RSE TASC transition specialist as they continue to work toward 100% compliance for their SPP #13 Self Review, due by August 31, 2018.
