CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2016, more than 300 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas including Tully Central School District students: Gracie Bartholomew (pictured on front cover), Karmen Beckwith, Paige Bunaisky, Marshal Clemens, Shauna Hayes, Desirea Hemingway, Jason Reid, Dakota Schreiner, Alicia Snyder, Daniel Spring (pictured on front cover), Nicholas Troup and Elizabeth Welliver.

OCM BOCES & TULLY CSD = STUDENT SUCCESS

When envisioning his ideal high school experience, Freshman Matthew Kelly pictured an environment in which technology was embraced and hands-on learning was the norm. So when he went on a tour of Seven Valleys New Tech Academy earlier this year, Matthew knew the school was perfect for him. He says that "Seven Valleys is different from a normal school in that you are given resources and parameters for projects but you ultimately chose a direction to go in." Matthew says that he is "so glad" he made the decision to attend.

While he is undecided about exactly what career he wants to pursue in the future, he knows that he will go to college. He says that he enjoys photography and loves using Adobe Photoshop to edit his pictures.

Matthew's facilitators commend the ways that Matthew has thrived at Seven Valleys. Ms. Wright, his Global Arts classroom facilitator, says, "Matt has shown great facilitator skills and abilities through project group work which has allowed him to take on leadership roles in the classroom."

DID YOU KNOW?

The overarching focus of work from Curriculum, Instruction and Assessment for Tully Central School District is support for literacy achievement by students through instructional work with teachers. Included are several entry points. Denise Pawlewicz continues to develop capacity with a secondary literacy leadership group. Patrick Shaw will work with specific teachers on the use of Project Based Learning as a vehicle to apply literacy skills, as well as, providing coaching on Responsive Classroom to build the culture and climate to enhance literacy achievement. Lisa Schlegel will provide an overview on Leveled Literacy Interventions to support struggling students. Jenny Fanelli will work specifically with teachers on Social Studies Inquiry which incorporates content literacy.
