## CAREER & TECHNICAL EDUCATION

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of 33 national innovative programs.

In 2016, more than 300 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas including Cazenovia Central School District student Michael Marshall (pictured on front cover), a welding technology student.

## SPECIAL EDUCATION

## OCM BOCES & CAZENOVIA CSD = STUDENT SUCCESS

William Moskvich has always had a passion for cars and motorcycles. That is why the OCM BOCES Automotive Collision Technology program was a perfect fit for him. The active instruction of the class keeps William motivated and wanting to learn more about his chosen career. Before coming to BOCES, William struggled to focus in class because he preferred active, hands-on work. At BOCES, William has excelled and truly enjoys coming to school.

William says his favorite thing about BOCES is that he gets to do something he genuinely enjoys – **every** day. Will's teacher, Matthew McGivney, a long-time OCM BOCES instructor, is impressed with his student's independence and willingness to work hard. An example of this is William's class project to restore his own motorcycle. Mr. McGivney is happy that Will has taken the initiative to tackle such a complex and challenging task.

After high school, he hopes to continue on to college and start a successful career in the field of Automotive Collision Technology.

### DID YOU KNOW?

Curriculum, Instruction and Assessment helped kick off the year, with Denise Pawlewicz providing ways to explicitly teach vocabulary. A group of K-12 teachers has been meeting with Lynn Radicello across three Saturdays to explore Effective Teaching - Formative Assessment and Feedback.
