Based on demand and repeated requests, *Serious Fun in the Classroom* is “releasing” another volume of greatest hits. Last year’s *BoSF* was a big success and there is even MORE to offer educators interested in finding the ways to help their students reach even higher levels of success.

Whether you have attended 1, 2, 3, 4 or all 5 of the full day sessions (*Serious Fun in the Classroom*, *MORE Serious Fun*, *Even MORE Serious Fun*, *Serious Fun IV*, *Serious Fun “5”* or the *Best of Serious Fun: Volume 1*), or any of the myriad of overviews, it’s time to add this to your collection. And, if this will be your **FIRST** *Serious Fun* session, what a perfect way to begin!

---

**As a result of this learning, participants will:**

- *MORE* strategies for helping students use their natural ability to play and laugh so that they learn...and learn well
- *MORE* research describing the place humor has in learning
- *MORE* activities and games that are adaptable to almost ANY grade level and content area
- *MORE* new, previously unreleased material
