<http://cia.ocmboces.org>

A series of seminars specifically designed for secondary science teachers (7-12) that are appropriate for teachers of earth science, living environment, chemistry, physics, and science electives. Teachers may choose to attend one or more of these focused discussions. Our fourth seminar of the 2009-2010 school year is:

---

## **Building Bridges Between Public Schools and Higher Education**

This panel will discuss ways in which area secondary science teachers can work with local Universities and Colleges to help improve their science teaching. These panel members will also discuss their own research, their affiliations with local school districts and organizations, and how they may be able to help other area school districts improve their science instruction.

### **Panel Members:**

Dr. Richard Beal, SUNY ESF  
Dr. Sharon Dotger, Syracuse University

**The OCM BOCES Science Center in collaboration with Curriculum,  
Instruction and Assessment**

**Please register through your District Contact Person.**
