

Guidance and Counseling Services

The counseling staff helps students develop an academic program, consider career options and assists in the areas of personal/social decision-making and problem solving.

It is imperative that the student, teacher, counselor and parent work closely to develop an educational plan appropriate for each individual student. During the winter months of each school year, the counselor will conduct an annual review. Educational planning, including an assessment of the year's progress, future academic programming and post-high school plans will be discussed during the review, as well as at other times during the year. Upon completion of the annual review, students will bring home a completed copy of a proposed academic program for the upcoming school year.

Parents are encouraged to contact the school counselor at any time for academic program, social and/or personal concerns, in addition to post-graduate goals.

Counselor Directory

Counselors *Phone No.*
Durgee Jr. High

Kristin Schoeneck..... 638-6088
 Heidi Dwyer 638-6088
 Christopher Marciniak..... 638-6088
 Sean McMahon..... 638-6088

C.W. Baker High School

Meredith Ambrose..... 638-6028
