

## 2013-2014 Evaluator Training Plans

### Year One Lead Evaluator Training

This is the initial training that OCM BCOES first provided in 2011-2012. This training is for administrators who have not been previously trained. The training will include all of the state-prescribed components. Additionally, our training will include suggestions for making your new APPR system manageable. The goal is to provide training that will help lead evaluators be instructional leaders. The core remains the same while the connections to Standards, Data-Driven Instruction, and Culture have evolved as we've learned about Race To The Top and the Regents Reform Agenda. The comprehensive training has been scheduled to conclude by the end of the calendar year, thus providing new hires with the training during the first semester. Whether or not there is an additional year one cohort will be determined during the year.
