Career & Technical Education

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2019, nearly 440 seniors from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including Baldwinsville students Quingaalaya Anderson, Madison Archer, Julia Atkins, Grace Bell, Porter Bristol, Michael Bombard, Daniel Burko, Taylor Bushnoe, Colleen Chiesa, Declan Coe, Vincent Cosme, Ashley Epolito, Dakota Green, Kaycee Hawk, Justin Jennings, Breanna Jernigan, Zachary Kline, Cydney MacConaghy, Morgan Liscum, Natalie Long, Taylor Lundblad, Audrey McConnell, Erik Morley, Deven Osier, Zachary Patapow, Jacob Russell, Lindsey Russell, Taylor Torrez, Zoe Van Tassel, Montana Veith, and Collin Ward.

OCM BOCES & Baldwinsville CSD = Student Success

Baldwinsville senior Cierrah Arney was determined to enroll in the Health Occupations program at OCM BOCES until a visit to the Thompson Road Campus prompted a sudden change of heart. A stroll past the brightly lit Laboratory Technology room – with all of its microscopes, eyedroppers, lab coats, and tiny plastic tubes — immediately caught her attention.

“Since I’ve come here, I’ve found myself really interested in this field,” said Cierrah, who is now in her second year of the Lab Tech program. “I really like doing behind-the-scenes work — running tests, diagnostics — rather than learning how to take care of patients.”

The small class size in Laboratory Technology, combined with individualized attention from instructor Charlene Maciak, has helped Cierrah excel. She was especially excited about two recent units in phlebotomy and urinalysis, which affirmed her desire to pursue laboratory technology as a career. Her plan is to attend Onondaga Community College for two years, then transfer to SUNY Upstate Medical University to complete a four-year degree.

Maciak said Cierrah is a hard-working, determined student who has shown noticeable improvements in the technical work of the lab as well as the “soft skills” that will prepare her for a future internship.

“Cierrah has improved her communication and collaboration skills by working on team projects and presenting to the class,” Maciak said. “Her confidence in the lab has grown along with her ability to solve problems and troubleshoot.”

For Cierrah, time flies at OCM BOCES because she enjoys doing hands-on work in the lab and appreciates her classmates, who she describes as “a little family.” She would definitely recommend the class to other students.

“I think it’s a great opportunity,” she said.

Did You Know?

This past summer, 34 staff members from the Baldwinsville Central School District attended a two-day Restorative Practices training through OCM BOCES. During the training, staff members learned the foundational skills that are essential to implementing and developing restorative communities within their schools.
