Career & Technical Education

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2019, nearly 440 seniors from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including DeRuyter students Joshua DiMasse, Louie Glisson, Aaron Glisson, Cameron Judson, Portia Krichbaum, Morgan Lawrence, Aliza Le Duc, and Amber Stedwell.

OCM BOCES & DeRuyter = Student Success

For DeRuyter senior Jazmine Bowman, the decision to attend the OCM BOCES Culinary & Pastry Arts program has had a profound impact on her future. Browman was recently accepted into two of the most prestigious culinary institutes in the Northeast: the Culinary Institute of America in Hyde Park and Johnson & Wales University in Providence, Rhode Island.

“Jazmine is very precise and meticulous in the kitchen,” said her instructor, Chef Madison Keehfus. “These are qualities that will help her become a good chef. She puts in a great deal of effort academically. She is also respectful, professional, and determined to reach her goals.”

Jazmine says she came to OCM BOCES for a simple reason: She loves to cook. The program at McEvoy has not only affirmed that passion, it has taught her the fundamentals of butchering, baking, food safety, dining etiquette, working in teams and more.

Keehfus said Jazmine has been determined to practice her skills, especially when students are asked to take on extracurricular challenges, such as catering for the OCM BOCES Annual Meeting dinner and the recent meeting of the Cortland-Madison School Boards Association.

“Jazmine has really stepped up to the plate when we have these events,” Keehfus said.

Once she completes college, Jazmine hopes to travel the world to learn about ethnic cuisine, especially Korean and other Asian dishes. Thanks to her time at OCM BOCES, Jazmine feels she is prepared for the next chapter. One day, she hopes to open her own restaurant.

“OCM BOCES has really helped me enhance my skills,” she said.

Did You Know?

Educators at DeRuyter Elementary School are digging deep into the foundations and science of reading instruction. This work, coupled with their thinking around renowned author/editor Timothy Shanahan, a professor at the University of Illinois at Chicago, will support teachers to enhance current literacy practices. Shanahan visited OCM BOCES this fall to share information through the new Literacy Leadership group.
