Career & Technical Education

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2019, nearly 440 seniors from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including Fayetteville-Manlius students Zachary Howell and Caleb Starowicz.

OCM BOCES & Fayetteville-Manlius = Student Success

In the two years she has spent at Innovation Tech High School, senior Britney Davia has taken on an increasing number of roles and responsibilities in the program. From serving as a schoolwide “tech liaison” to mentoring and leading her peers, Britney has been active in the Innovation Tech community.

“My favorite part about our program is how close everyone is to one another,” Britney said. “We are connected here and able to depend on each other.”

School counselor Kayla Beyer says Britney has really come out of her shell and built her confidence since she started at Innovation Tech, especially through public speaking and working with her peers.

“She continues to impress us with her growth here and the challenges she is constantly taking on,”

Beyer said.

Britney’s time at Innovation Tech has also allowed her to participate in a variety of practical courses and special programs, including Financial Planning, Onondaga Community College Public Speaking, and Leadership Innovation Tech. Britney cites the Leadership Innovation Tech class as one that has taught her a lot about herself and exposed her to the field of cybersecurity, which she hopes to pursue in college. Another program, the College & Career Readiness Term, also pointed her toward that career. She has since applied to a handful of colleges for cybersecurity and was recently accepted into one of her top choices, Alfred State College.

For Britney, the future is bright. Her English facilitator, Ryan Howlett, describes Britney as innovative and resourceful.

“Since she arrived at Innovation Tech, Britney has put her own unique mark on our project-based learning dynamic with a combination of creativity, analysis, and thoughtful collaboration,” Howlett said. “Britney is a highly sought-after group member and will certainly be highly sought-after by post-secondary institutions!”

Did You Know?

Sarah Woodward-Jones, World Language Department Coordinator at Fayetteville-Manlius, serves on the New York State Seal of Biliteracy OCM BOCES Consortium Committee. Sarah is part of the collaborative team that creates rubrics and project exemplars to guide candidates through the Seal of Biliteracy process. Sarah is also on the state World Language Standards Review Committee. Through this initiative, Sarah assists in the revision of the standards and advises the committee regarding the creation of upcoming assessments. Sarah will also assist with the implementation of benchmarks and guidelines of the American Council on the Teaching of Foreign Language (ACTFL) in supporting accomplished instructional practices of World Language educators across our region.
