Career & Technical Education

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2019, nearly 440 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Onondaga students Thomas Fitzgerald, Madison Gadoua, Chadwick Havens, Lindsey McClure, Kyler Murphy, and Gabrielle Slaski.

OCM BOCES & Onondaga = Student Success

With a strong desire to become a lawyer or criminal investigator, Brennan McMahon knows the importance of being organized, articulate, and confident in his ability to give presentations in front of others. Brennan, a junior from the Onondaga Central School District, has honed those skills in his three years at Seven Valleys New Tech Academy in Cortland, where public speaking is written into the fabric of the school's building-wide emphasis on Project Based Learning.

“Brennan knows that, as a lawyer, he will need to present cases and have his voice heard,” said one of his facilitators, Jake Melynk. “He is working on these skills here, and it has helped him learn how to communicate with others and express himself.”

Brennan says Seven Valleys has not only given him confidence in public speaking, it has helped him learn how to collaborate with others, manage his time, and become more efficient with computer programs such as the “G Suite” of Google apps and Adobe Photoshop.

Melynk says Brennan is performing particularly well in his “Physebra” class, which combines Physics and Algebra 2, and in a sociology class that will allow him to earn college credit through Tompkins Cortland Community College. Brennan has also taken a strong interest in the overall vision of the school, which encourages students to set their own norms and direct their own learning.

“Seven Valleys has provided Brennan with an opportunity for leadership and a strong ability to reflect on his work,” Melynk said. “He is always positive, willing to help others, and is dedicated to his team and his academics.”

Did You Know?

Through the OCM BOCES grant writing service and the leadership of Superintendent Rob Price and the Onondaga County Sheriff's Department, we successfully secured the STOP Violence Prevention and Mental Health Training grant. This grant supports seven of our school districts in improving school safety and providing much-needed training in the areas of trauma-informed care and crisis intervention for school resource officers and faculty in each of those districts. The OCM BOCES Instructional Support Services team is proud to be a partner in providing that training. We are looking forward to working with Rob and the sheriff's department on this grant over the next three years.
