Career & Technical Education

New York State’s approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2022, 294 seniors from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including Homer students Connyr Belden, Isaiah Burrell, Dilan Bush, Brodrick Butts, Ethan Cawley, Jack Chevalier, Madelyn Cotterill, Jorge Cruz II, Zachary Edwards, Dalton Rldridge, Brianna Fortin, Kolbe Fuller, Ian Gilbert, Carsen Johnson, David Limoges, Andrew Lynch Jr., Tayvn Malchak, Zachary Marks, Evan Morgan, Alayna Pagan, Logan Peck, Taylynn Platt, Roberto Ponce, Danielle Quaile, Delphina Riley, Horatio Silvernail, Harlie St. John, Collin Stevens, Camren Susman, Troy Tinkham, Drew Underwood, Zachary Van Etten, Samuel Wagner, Charlotte Wallis, and Bailey Webster.

OCM BOCES & Homer = Student Success

For Homer senior Nathan McMullin, working on heavy-diesel equipment at All County Collision & Repair has given him a solid foundation for a career in the field.

That, he said, was exactly what he was hoping for.

“This will really enhance my skills,” he said. “I like that the engines are more intricate and require more detail.”

Nathan is in his second year of the two-year program, called Heavy Equipment Repair, Operations and Diesel Technology. It combines classroom instruction at Homer Central High School with a work-based learning environment inside the shop. Students perform hands-on work with heavy-diesel equipment, including engines and a semi-tractor. They also work side-by-side with experienced technicians.

OCM BOCES partnered with All County Collision & Repair in 2021 to support students who are interested in the field and also help the company create a pipeline of employees in the heavy-diesel industry. Nathan wants to take full advantage of that opportunity by honing his technican skills during high school and college, then looking for a full-time job.

Nathan’s dedication to auto mechanics and diesel technology — something he also likes to work on in his free time — has caught the eye of the company’s owner, Ken Morey, who described him as “attentive and knowledgeable of his skills.”

His teacher, Brian Holl, agrees.

“Nate already had a great base of understanding when he entered this program,” Holl said. “But with the class and the hands-on learning in the shop, his knowledge has greatly improved, and he has excelled.”

Did You Know?

The Diversity, Equity & Inclusion team at OCM BOCES met with Homer administrators to begin the district’s journey of creating a Culturally Responsive Sustaining Education. Homer administrators are excited about building capacity and cultivating welcoming and affirming learning environments for all students and staff throughout the district.
