Career & Technical Education

New York State’s approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2022, 294 seniors from OCM BOCES’ component districts were eligible to earn CTE endorsements on their high school diplomas, including West Genesee students Joseph Abbott, Christian Amodio, Hunter Bealer, Karli Clark, Riley Collier, Kenneth Davis, Liam Forshee, Adam Griffin, Connor Jacuk, Hunter Mannix, Austin Moon, Gavin O’Neill, Jeffrey Pierce, Erik Pomeroy, Maximus Pritchard, Trenton Procopio, Michaela Strout, Arianna Sullivan, Arianna Thompson, Morgan Trexler, Tayanna Waterfield, and Angelina Winters.

OCM BOCES & West Genesee = Student Success

Samuel Snyder has become one of the hardest-working students in Nicholas Ross’ Construction Technology class at the OCM BOCES Thompson Road Campus.

This year, his exemplary work stood out as he and his classmates framed a brand-new modular home being constructed directly behind their OCM BOCES classroom and workshop. Over time, Sam and his classmates will complete the house and, in the process, learn the hands-on fundamentals of carpentry, drywall, painting, framing, roofing, floor installation, door and window installation, blueprint reading, siding, electrical wiring, plumbing, proper tool use, and OSHA safety training.

For Sam, nothing could be better. He hopes to get a well-paying job in the construction field immediately after high school. Eventually, he hopes to run his own business.

“BOCES was a great fit because I enjoy it a lot more than working in a traditional classroom,” he said. “My favorite things about BOCES are the environment and all the people I’m around.”

In addition to acquiring construction skills, Sam has grown academically and socially in the BOCES environment. His willingness to learn has increased steadily since he first joined the construction program at the start of his junior year. In fact, Sam has demonstrated an exceptionally strong work ethic and leadership potential during these first few months of his senior year, his teacher said.

“Sam has grown the most — professionally — by becoming one of the most productive students in the class,” Ross said. “I’m confident this program will give him the skills he needs to get a job offer right after high school.”

Did You Know?

One of the joys of working with the Puerto Rican Hispanic Youth Leadership Institute (PRHYLI) is strengthening and expanding the Syracuse-area delegation to include as many districts as possible. This year, we were excited to welcome Hailey Hann from West Genesee High School to be a part of the PRHYLI experience. Hailey was steadfast in her dedication to the work as she learned about the lawmaking process, exercised persuasive public speaking, and debated legislation during the Albany Mock Assembly. Hailey represented her district tremendously well and has paved the way for more students from West Genesee to begin their own leadership journey.
