SPOTLIGHT: OCM BOCES Embedded Programs

Heavy Equipment Repair, Operations & Diesel Technology

This year, 70 juniors and seniors have enrolled in this two-year Career & Technical Education program located at All-County Collision & Repair in Homer and Tracey Road Equipment in East Syracuse. Students learn essential skills in the operation and repair of heavy machinery and heavy-duty diesel trucks using the latest techniques and diagnostic equipment. An experienced classroom instructor and on-site professionals are getting them well-prepared for a potential career in this high-demand industry.

Firefighting and Emergency Medical Technician

This new, two-year Career & Technical Education program is off to a busy start at the Madison County Emergency Management Training Center. Students have the opportunity to earn certifications in Basic Exterior Firefighting Operations (BEFO) and Emergency Medical Technician (EMT)-Basic. The half-day class combines an on-site classroom with access to facilities, rescue equipment and highly dedicated emergency responders.

Career & Technical Education

Students who earn a Career & Technical Education endorsement on their high school diplomas have met rigorous academic and industry standards that are recognized by employers and colleges across the United States.

In 2023, these seniors from Marcellus were eligible for CTE endorsements: Jacob Belden, Zachary Calvani, Cole Cooper, Owen Cruz, Kyle Lanning, Zachary Lester, Dominick Maiura, Jordan Martin, Colten Miller, Benjamin Millier, Joseph Murray, LeeAnn Nelson, Eric Radionov, River Robinson, David Snook, Alexander Stearns, Zachery Swan, Noah Teal, and Eric Trendowski.

Seal of Civic Readiness

To earn the Seal of Civic Readiness, students must demonstrate an understanding and commitment to making a positive difference in their communities through civic knowledge, skills, actions, mindsets and experiences. At OCM BOCES, 58 seniors in our Innovative Education and Special Education programs achieved this formal distinction during the 2022-2023 school year.

Jonathan Cross is passionate about cars and determined to forge a successful career in the automotive technology industry. That’s why the OCM BOCES Automotive Technology program at the Thompson Road Campus is a perfect fit for this Marcellus junior.

“Jonathan is very hard-working, always looking to keep busy, always looking for the next project,” said his instructor, Sam Azria. “He tries to learn everything he can.”

Jonathan likes the program because it hones his existing automotive technology skills and challenges him to learn more. In a recent project, for example, Jonathan and his classmates had to remove a fuel pump from a Hyundai and install a new one — a job that required dropping the fuel tank. It was an exceptionally challenging task, but Jonathan was determined to get it done and demonstrated an attitude “that separates the good mechanics from the great mechanics,” Azria said.

“He came in every day and said, ‘I want to get this done,’” Azria said.

Jonathan also works well with his classmates and has made new friends because of the program. He likes collaborating with them to solve problems.

Looking ahead, Jonathan plans to attend SUNY Morrisville so he can continue his studies in automotive technology. Some day, he would like to manage his own shop.

Azria is confident he will be successful.

“He’s just a good student overall with a great attitude,” Azria said.

Did You Know?

Marcellus has been hosting a grassroots conference called DigiFest for the last several years and has called upon Instructional Support Services (ISS) at OCM BOCES to support this event through registration, public relations, and speakers. Technology integration is the backbone of our eLearning Department in ISS, so we are proud to partner with Marcellus for DigiFest and its goal of effectively implementing technology into all facets of teaching and learning.
