Welcome To Animal Responses

Mealworm

Brine shrimp - Artemia

Map of Crayfish

P - Pot
M - Male
F - Female

CRAYFISH, EXTERNAL STRUCTURE

Scientific Process Planning Form

Identifying Problem / Hypothesizing

What do you want to find out? (Question)

What do you think will happen? (Hypothesis)

Why do you think it will happen?

Planning

What are you going to do? What materials will you use? (You may need to continue to write your plan on another sheet of paper, step by step.)

These things will vary (variables):

These things will always be kept the same (controls):

Making Observations

What are you going to measure / observe?

Recording Results

How are you going to record your observations?

If you are using a data table, what types of data will you place in it?

Create Your Data Table

Conclusions

What happened? Why do you think it happened? Was your hypothesis correct?
