Career & Technical Education

New York State's approval process for Career and Technical Education (CTE) programs has raised the quality and rigor of courses that prepare students for employment and postsecondary study. Approved programs lead to an industry-recognized credential or certificate at the postsecondary level, or an associate or baccalaureate degree. CTE courses offer students the opportunity to apply academic concepts to real-world situations and prepare them for industry-based assessments or certifications. They have the opportunity to earn college credit or advanced standing while still in high school and take part in work-based learning opportunities where they demonstrate mastery of skills essential in the workplace. In addition, our Technically Endorsed programs, embedded in area businesses, have been recognized by *District Administration* magazine as one of more than 30 national innovative programs.

In 2020, 441 seniors from OCM BOCES' component districts were eligible to earn CTE endorsements on their high school diplomas, including Baldwinsville students Mia Alfano, Alivia Allen, Madelyn Anderson, Cierrah Arney, Morgyn Barber, Maddison Bird, Colin Bourque, Michael Burkart, Joseph Calkins, Julia Cano, Jamie Cooper, Haylee Delaney, Christopher Diaz, Connor Duester, Leiazia Ellington, Emma Flint, Isabella Forbes, Renee Gallton, Julie Graham, Aliyah Gravante, Austin Grigsby, David Hackett Jr., Robert Hamm, Jenna Hierholzer, David Hildreth, Jace Hubbard, Cassidy Hudson, Victoria Jones, Paige Kellar, Madison Knight, Chloe Landry, Derek Laxton, Devin Laxton, Connor McAlhaney, Celina Neugent, Evan Okrasinski, Jordan Palmer, Madeline Parks, Molly Perras, Elijah Perry, Mirjana Piano, Ayden Plaza, Queen Raynor, Nathan Robinson, Noelle Rockwood, Cynthia Rodman, Lukas Rotunno, Sabreanna Sinclair, Matthew Speelman, Chayne Turo, Christian Underwood, Christian VanSanford, Evan Walton, Dylan Williams, and Hope Williams.

OCM BOCES & Baldwinsville CSD = Student Success

Innovation Tech has proven to be a great fit for Nathan Saint, a Baldwinsville sophomore who once struggled academically but has since landed on the honor roll two years in a row. Nate attributes his success to his favorite aspect of Innovation Tech — project-based learning. He loves everything about it, including “working together instead of working by ourselves, having help along the way, and staying on the same track as my peers.”

Nathan has a quiet demeanor, but the school's emphasis on collaboration and public speaking has “helped Nate open up and come out of his shell,” said Kayla Beyer, the school counselor. “He has gotten comfortable talking in front of the class, working with his peers, and sharing out ideas,” she said.

Math Facilitator Martha FitzPartrick said Nate is not only a good student, but “a wonderful young man.” He routinely makes meaningful contributions to discussions, works hard at everything he does, exhibits pride in his grades, and is noticeably friendly to friends and classmates across different grade levels.

She thinks Innovation Tech will prepare him well for a career in the U.S. Coast Guard, his ultimate goal.

“You can tell he will go far in life,” FitzPartrick said. “I’m excited I get to watch him learn and grow over his high school career.”

Did You Know?

OCM BOCES is providing support to families who are choosing to provide home instruction to their children for the 2020-2021 school year. Baldwinsville has 170 students enrolled in the OCM BOCES Home Instruction Service, which supports districts with documentation, regulatory requirements and consistent communication with the home instruction liaison.
