# Career & Technical Education

HEAVY EQUIPMENT REPAIR,  
OPERATION & DIESEL TECHNOLOGY  
@ All County Collision & Repair

## PROGRAM OVERVIEW

Located at All County Collision & Repair in Homer, the two-year Heavy Equipment Operations and Diesel Repair Technology program is designed to offer students essential skills in the maintenance and repair of heavy equipment and heavy-duty diesel trucks using the latest techniques and computerized diagnostic equipment. Students will gain daily practical experience working with a variety of engines and equipment that will prepare them for employment opportunities or furthering their education at college and technical schools. Students may be eligible to earn industry certifications in safety training and equipment operation. A Career and Technical Endorsement on their high school diploma will signify that students have met the rigorous industry standard upon successfully passing a technical assessment.
