

## **Uppers, Downers and All Rounders: The Facts About Today's Drugs**

Do you know what "huffing" is? That LSD is making a comeback? That those "cute" pacifiers and glow sticks in your teen's room are common paraphernalia used when getting high on ecstasy?

If you answered "no" to any of these questions, you should attend this workshop where we will discuss "traditional" drugs, the new "club" and "designer" drugs as well as prescription and over-the-counter substances that are routinely being abused.
